HSE INFOGRAPHICS & VISUAL SUMMARIES

TURNING COMPLEX HSE INFORMATION INTO VISUALS PEOPLE UNDERSTAND AND ACT ON.

OVERVIEW

How often does critical HSE information exist, yet fails to truly capture attention or support action in real working conditions?

In many environments, safety data is available in reports, procedures, and systems, but it is often too complex, too dense, or not presented in a way that people can quickly understand and apply.

Our infographics reframe this complexity into clear, structured visual summaries that engage attention, simplify understanding, and support safer, faster decisions across all levels.

WHAT WE DELIVER

- Risk assessment visual summaries.
- Process and procedure infographics.
- Toolbox talk visuals.
- Safety campaign visuals.
- KPI visualization and performance visuals.
- Incident learning visuals and posters.

OUR APPROACH

We focus on clarity, structure, and real usability.

Each visual is designed to:

- Highlight what matters most.
- Guide attention and understanding.
- Support real-world application, not just presentation.

HOW IT HELPS

- Improves understanding of complex information.
- Reduces misinterpretation and errors.
- Supports faster decision-making.
- Enhances training effectiveness.
- Strengthens safety awareness and engagement.

SAFETY SIGNS & VISUAL SYSTEMS

DESIGNING COMPLIANT, EFFECTIVE SIGNS AND VISUAL SYSTEMS THAT IMPROVE AWARENESS.

OVERVIEW

How often are safety signs in place, yet fail to truly influence behavior when it matters most?

In many environments, critical safety messages are already present, but they are not always noticed, understood, or acted upon in real situations.

At REM Systems, we design safety signs and visual systems that bring clarity to the moment, making risks visible, guiding attention, and supporting safer actions in critical situations.

WHAT WE DELIVER

- Safety signs (mandatory, warning, prohibition, emergency).
- Custom signs for site-specific hazards.
- Directional and informational signs.
- Hazard identification labels.
- Visual systems that guide safe behavior.

OUR APPROACH

We combine technical accuracy with visual clarity.

Each sign and system is:

- Purpose-driven.
- Standard-compliant.
- Easy to understand.
- Tailored to your environment.
- Durable and visible.

HOW IT HELPS

- Improves hazard communication.
- Reduces risk of incidents and accidents.
- Supports compliance and audits.
- Enhances safe behavior.
- Creates a professional and organized environments.

HSE DOCUMENTS & REPORTS DESIGNS

TRANSFORMING COMPLEX HSE INFORMATION INTO CLEAR, STRUCTURED, AND ACTIONABLE DOCUMENTATION.

OVERVIEW

How often are important reports completed, yet rarely read, fully understood, or applied effectively in real working conditions?

In many organizations, critical HSE information is buried within long, text-heavy documents that are difficult to navigate, absorb, or communicate clearly across teams.

At REM Systems, we transform complex reports and technical content into structured, visually organized documentation that improves clarity, supports understanding, and helps information become more usable, actionable, and meaningful.

WHAT WE DELIVER

- HSE reports design (EIA, ESIA, HSE audits, etc.).
- Risk assessment document formatting.
- Policies, procedures, and manuals.
- Training manuals and handbooks.
- Sustainability and carbon footprint.
- Corporate HSE documentation.
- Presentation-ready reports and summaries.

OUR APPROACH

We focus on clarity, structure, and usability.

Each document is designed to:

- Organize information logically.
- Highlight key messages and insights.
- Improve navigation and flow.
- Maintain consistency and professional standards.

HOW IT HELPS

- Improves readablity and structure of documents.
- Makes complex content easier to understand.
- Reduces misinterpretation and confusion.
- Supports better communication with stakeholders.

TRAINING MATERIALS & PRESENTATIONS

TRANSFORMING COMPLEX TRAINING CONTENT INTO ENGAGING AND ACTIONABLE LEARNING EXPERIENCES.

OVERVIEW

How often do people attend training sessions, yet retain only a small part of what was presented?

In many environments, training materials are overloaded with information, making it difficult to maintain attention, support understanding, or connect learning to real working conditions.

At REM Systems, we design visual training materials and presentations that simplify complexity, engage attention, and improve how information is understood, remembered, and applied in practice.

WHAT WE DELIVER

- Training presentations.
- Participant guides and workbooks.
- Toolbox talk materials.
- E-learning slides and modules.
- Visual learning summaries and key takeaways.
- Custom illustration and diagrams.

OUR APPROACH

We combine visual clarity, structured learning, and audience engagement to improve understanding and retention.

Each material is:

- Audience-focused.
- Message-driven.
- Visually engaging.
- Simple and clear.
- Ready to present and deliver.

HOW IT HELPS

- Improves knowledge transfer.
- Supports consistent understanding and communication.
- Enhances retention and recall.
- Helps reduce errors and incidents.
- Builds a stronger safety culture.
- Increases participation and engagement.

HSE ICON SYSTEMS & VISUAL LANGUAGE

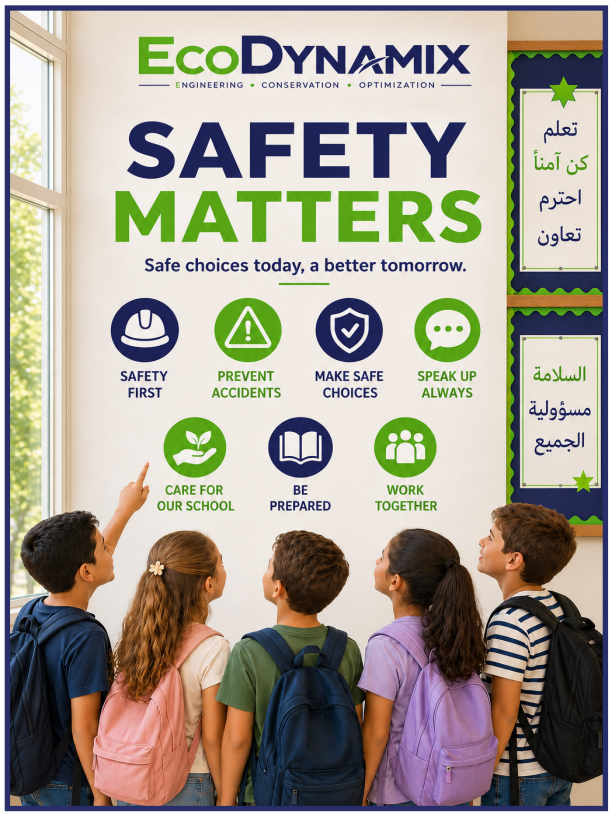

TURNING COMPLEX INFORMATION INTO VISUAL LANGUAGE PEOPLE RECOGNIZE, UNDERSTAND, AND FOLLOW.

OVERVIEW

How often do people rely on text-heavy instructions when fast understanding is needed most?

In many environments, critical information is communicated through complex language, inconsistent symbols, or visuals that are difficult to recognize quickly under real conditions.

At REM Systems, we design structured icon systems and visual languages that simplify communication, strengthen recognition, and help people understand and respond faster, with greater clarity and consistency.

WHAT WE DELIVER

- Custom HSE icon systems and symbol sets.
- Standardized visual language for communication.
- Process and procedure icon mapping.
- Visual systems for signs and training materials.
- Visual icons for KPI communication systems.
- Custom icon libraries aligned with your operations.

OUR APPROACH

We combine clarity, consistency, and visual structure to improve how information is recognized and understood in real environments.

Each visual system is designed to:

- Create instant recognition and understanding.
- Reduce reliance on text-heavy communication.
- Ensure consistency across all materials.
- Support real-world application, not just design.

HOW IT HELPS

- Improves clarity of communication.
- Reduces misinterpretation and errors.
- Enhances training and retention.
- Strengthens a unified safety culture.
- Supports faster understanding and safer decision-making in real environments.

CORPORATE MATERIALS & PRINT DESIGNS

TURNING CORPORATE COMMUNICATION INTO CLEAR, CONSISTENT, AND VISUALLY ENGAGING BRAND EXPERIENCES.

OVERVIEW

How often do company materials communicate information, yet fail to reflect the professionalism, clarity, or identity behind the organization?

In many cases, corporate communication materials are overloaded, inconsistent, or visually disconnected, making it difficult to present messages clearly and leave a strong professional impression.

At REM Systems, we design structured corporate materials that strengthen brand identity, improve communication clarity, and create visually consistent experiences across presentations, reports, campaigns, and business communication tools.

WHAT WE DELIVER

- Company profiles and brochures.
- Flyers and awareness leaflets.
- Posters, banners and campaign materials.
- Corporate calendars and folders.
- Presentations and pitch decks.
- Branded templates and corporate stationery.
- Custom layouts for reports and proposals.

OUR APPROACH

We combine visual clarity, structured communication, and strategic presentation to create materials that strengthen professional impact.

Each design is:

- Purpose-driven.
- Visually engaging.
- Clear and easy to understand.
- Consistent with your brand.
- Delivered print-ready and on time.

HOW IT HELPS

- Improves communication and understanding.
- Enhances brand image and credibility.
- Increases engagement and awareness.
- Supports stronger professional presentation and communication.
- Strengthens your overall HSE culture.
- Supports marketing and business development.

POSTERS & CAMPAIGN MATERIALS

TURNING SAFETY MESSAGES INTO VISUAL CAMPAIGNS PEOPLE NOTICE, REMEMBER, AND ACT UPON.

OVERVIEW

How often are important safety messages available, yet quickly ignored, forgotten, or lost in the noise of daily operations?

In many workplaces, people are surrounded by information, but only a small part truly captures attention, influences behavior, or remains visible in the moment it is needed most.

At REM Systems, we design visual posters and campaign materials that simplify key messages, strengthen awareness, and create stronger emotional and visual connection with safer behaviors and workplace culture.

WHAT WE DELIVER

- Safety awareness posters.
- Campaign posters and banners.
- Behavior-focused safety visuals.
- Event and initiative promotional materials.
- Infographics for awareness campaigns.
- Digital posters for screens and social media.
- Customized visual content for HSE programs.

OUR APPROACH

We combine visual impact, communication clarity, and behavioral thinking to create campaigns that people notice and remember.

Each design is:

- Message-driven
- Audience-focused.
- Visually engaging.
- Simple and memorable.
- Consistent with your safety culture.
- Ready for print and digital use.

HOW IT HELPS

- Increases awareness and visibility.
- Communicates key messages quickly.
- Encourages positive behavior change.
- Supports safety programs and initiatives.
- Reinforces key messages through continuous visual presence.
- Strengthens engagement and participation.

DIGITAL CONTENT & SOCIAL MEDIA VISUALS

TURNING SAFETY COMMUNICATION INTO ENGAGING DIGITAL EXPERIENCES PEOPLE NOTICE, FOLLOW, AND REMEMBER.

OVERVIEW

How often are important safety messages shared digitally, yet quickly overlooked in the constant flow of online content?

In today's fast-moving digital environments, information competes continuously for attention, making it difficult for safety communication to remain visible, engaging, and memorable across platforms.

At REM Systems, we create digital content and social media visuals that simplify communication, strengthen engagement, and keep safety messages active, relevant, and consistently visible in everyday digital interaction.

WHAT WE DELIVER

- Social media posts and campaigns.
- Infographics for digital platforms.
- Digital presentation visuals.
- Web banners and digital ads.
- Email visuals and newsletters.
- Custom digital templates and brand-aligned communication visuals.

OUR APPROACH

We combine communication strategy, visual clarity, and platform-focused design to create content that connects and remains visible.

Each content piece is:

- Purpose-driven.
- Consistent with your brand.
- Optimized for each platform.
- Audience-focused.
- Clear and concise.
- Visually engaging.

HOW IT HELPS

- Improves communication of safety messages.
- Reaches wider audience across platforms.
- Encourages interaction and participation.
- Supports safety programs and initiatives.
- Enhances brand professionalism.
- Strengthens visibility and impact of safety communication.
- Increases retention through visual learning.
